52. 5/2 a mixture of passivity + warlike-ness

Als of people on dark bulky cloths standing & walking around in snow, waiting, but also looking for something. All seem depressed. To their left over is a group of buildings all fifty - some a neighborly each other. Don't seem to be dwellings - more like storage or low intensity industrial facilities, or perhaps military related structures. Area is open, but hemmed in by higher elevations (Hills) which Als stand & straight dark trees. Much open space with vegetation & snow - think of white sage flats in the high ranges of the Great Basin.
